Purchase a qualified FLIR T-Series camera & receive free training

FLIR T-Series thermal imaging cameras take your business to the next level, providing a quick solution for finding electrical faults, troubleshooting hot spots, and performing efficient predictive maintenance. Without proper training, though, you could miss important signs of failure, or worse, misinterpret your data.

The Infrared Training Center (ITC) will help ensure you get the job done right. ITC Thermography Certification courses can provide you with the knowledge and confidence to diagnose problems, make solid assessments, and produce professional reports.
